Tutor
Nackademin

📅 10/2013 - 01/2014   📍 Stockholm, Sweden

SUMMARY

I'm a fun, goofy and nerdy developer in a cool package, that actually finds writing VBScript for Excel kinda fun.

While working in my field I've found a passion in QA and automated testing but I'm driven by learning and believe we'll never be fully trained, there's always more to learn.
